**Available to All Steel Retirees and Spouses
Group Plans Providing Choice, Quality and Value**

Why am I receiving this brochure?

Understanding your health care coverage options is more complex than ever. The Steel VEBA Trust is committed to helping you make an informed choice, with tools and resources to guide you in exploring today's health plan options and the savings they can provide.

When it's time to select your health plan, think about how it will fit into your lifestyle.

Some things to consider:

COVERAGE

Are the services you need covered?

COST

How much are your premiums, deductibles, and other costs for things like doctor visits or hospital stays? What's the yearly limit for out-of-pocket costs?

TRAVEL

Does the plan cover you in another state or outside the U.S.?

CHOICE DOCTOR & HOSPITAL

Do your doctors accept the coverage? If not, are the doctors you want to see accepting new patients? Do you have to select your hospital and health care providers from a network?

PRESCRIPTION DRUGS

Do you need to join a Medicare drug plan? Will you pay a penalty if you join a plan later? What do your prescription drugs cost, and will they be covered?

CONVENIENCE

Where are the doctors' offices? What are their hours? Which pharmacies can you use? Can you get your prescriptions by mail?

Documentation

To provide coverage for a dependent under any of the Trust dental and vision programs, you must submit documentation that supports your relationship to the dependent when dependents are added after initial enrollment into the Trust plans. Please contact the Steel VEBA Call Center, **Benistar** at **1(800)236-4782** for a list of acceptable documentation.

Persons Not Eligible to Participate (Dependents do not include):

- Individuals on active duty in any branch of military service
- Parents, grandparents or other ancestors
- Grandchildren who do not meet the definition of dependent grandchildren and who are not claimed on you or your spouse’s federal income tax return.

Children	Your biological children, stepchildren, legally adopted children, children for whom you have obtained court-ordered guardianship or conservatorship; qualified children placed pending adoption; grandchildren; and children of your domestic partner if you also cover your domestic partner for the same benefit. Your children must be on the federal income tax of the Retiree to be eligible to enroll in the Dental and Vision plans through the Trust.
Dependent Grandchildren	Your unmarried grandchild must meet the requirements listed above and must also qualify as a dependent as defined by the Internal Revenue Service on your or your spouse’s federal income tax return.
Disabled Children	To continue coverage past the age limit, your disabled child must otherwise meet the requirements for eligible dependents and must also meet the following definitions: A disabled child is a child who, due to a mental or physical disability, is incapable of earning a living at the time he or she would otherwise cease to be a dependent if the child is covered as a dependent at that time and if at that time he or she depends on you for principal support and maintenance. A disabled child continues to be considered and eligible dependent as long as the child remains incapacitated, unmarried, dependent on you for principal support and maintenance, and you continuously maintain the child’s coverage as a dependent under the plan from the date he or she otherwise would lose dependent status. A dependent child who loses eligibility and later becomes disabled is not eligible to be covered. A disabled child who was not covered as a dependent immediately prior to the time he or she would otherwise cease to be a dependent is not eligible to be covered.

WHAT IS Medicare?

UNDERSTANDING THE BASICS

You have important decisions to make when you become eligible for Medicare. Our goal is to help you understand your options and feel confident about choosing coverage based on your needs.

The Steel VEBA Trust's current coverage requires participation in Medicare Parts A and B. Before you look into a Medicare Supplement or Medicare Advantage plan, it's important to understand what Medicare covers and the costs you may incur when utilizing Medicare services. You are either coming into Medicare because you are turning 65 or you qualify for Medicare under 65 due to a disability, such as End Stage Renal Disease (ESRD) requiring kidney dialysis or kidney transplant.

Medicare has *four* parts

PART A **Hospital Insurance**

Medicare Part A covers inpatient treatment in a variety of settings including hospitals, skilled nursing facilities, hospice, and other inpatient facilities. Medicare Part A involves deductibles and co-pays*, per benefit period, as well as long-term hospital stays over 90 days.

PART B **Medical Insurance**

Medicare Part B is health insurance that covers doctor visits, exams, immunizations, checkups, and durable medical equipment. Like Part A, Medicare Part B involves out-of-pocket expenses including a monthly premium, annual deductible and typically 20% of the total cost of your care.**

Together, Part A & Part B make up Original Medicare. These are the portions provided and administered by the federal government. (They aren't provided for free) Important: Original Medicare does not cover outpatient prescription drugs, nor does it cover some basic services, including dental, vision or hearing.

PART C **Medicare Advantage**

Medicare Advantage plans, sometimes called "Part C" or "MA Plans," are offered by private, Medicare-approved companies. A Medicare Advantage plan provides all of your Part A and Part B coverage. Part D prescription drug coverage is sometimes included as well. Each plan can charge different out-of-pocket costs and have different rules for how you get services.

PART D **Prescription Drug Insurance**

Medicare Part D is prescription drug coverage. These plans reduce your overall health care costs by lowering the cost of your prescriptions. Each plan can vary by cost and drug coverage.

Part C & Part D are both sold by private companies (example: Blue Cross) instead of the federal government, and must abide by government regulations. Medicare Advantage must cover at least the same benefits as Original Medicare.

WHAT ARE YOUR MEDICARE OPTIONS?

The two main ways to get your Medicare coverage are: Original Medicare or a Medicare Advantage Plan. The chart on the following page can help you visualize your choices.

Medicare Enrollment Period

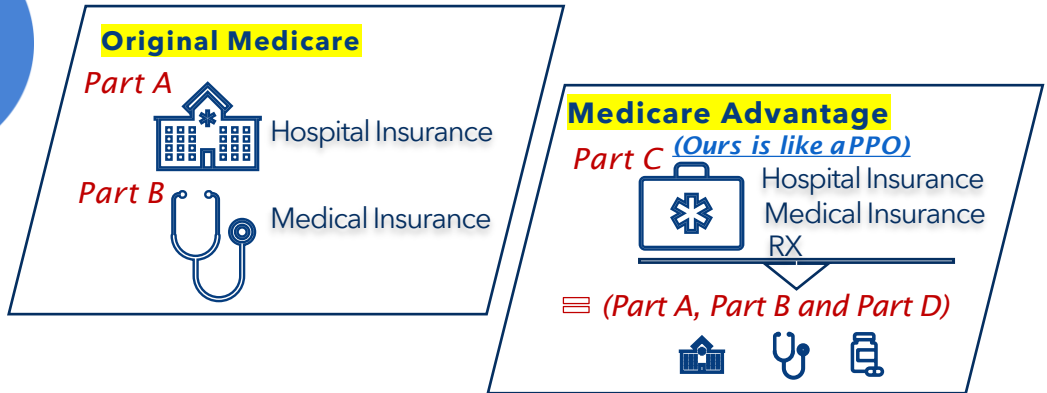

* Medicare Part A & B is set by CMS and Part A depends on your work history and Part B is determined by your earnings. Medicare Part A is free for most people, as long as you or a spouse have worked 40 quarters. Please check www.Medicare.Gov for this year's amounts.

**In addition to the monthly premium associated with a Medicare Advantage Plan, or Medicare Supplement Plan and/or Prescription Drug Plan, you must continue to pay your [Medicare](http://www.Medicare.Gov) Part B premium.

Telehealth Services

Medicare has temporarily expanded its coverage of telehealth services to respond to the previous Public Health Emergency. These services expand the current telehealth covered services, to help you have access from more places (including your home), with a wider range of communication tools (including smartphones), to interact with a range of providers (like doctors, nurse practitioners, clinical psychologists, licensed clinical social workers, physical therapists, occupational therapists, and speech language pathologists). During this time, you will be able to receive a specific set of services through telehealth including evaluation and management visits (common office visits), mental health counseling and preventive health screenings without a copayment if you have Original Medicare. This will help ensure you are able to visit with your doctor from your home, without having to go to a doctor's office or hospital, which puts you and others at risk of exposure to COVID-19.

You may be able to communicate with your doctors or certain other practitioners without necessarily going to the doctor's office in person for a full visit. Medicare pays for "virtual check-ins"—brief, virtual services with your physician or certain practitioners where the communication isn't related to a medical visit within the previous 7 days and doesn't lead to a medical visit within the next 24 hours (or soonest appointment available).

You need to consent verbally to using virtual check-ins and your doctor must document that consent in your medical record before you use this service. You pay your usual Medicare coinsurance and deductible for these services.

Medicare also pays for you to communicate with your doctors using online patient portals without going to the doctor's office. Like the virtual check-ins, you must initiate these individual communications.

Since some people don't have access to interactive audio-video technology needed for Medicare telehealth services or choose not to use it even if offered by their practitioner, Medicare is allowing people to use an audio-only phone.

You may use communication technology to have full visits with your doctors. Also, you can get these visits at rural health clinics and federally qualified health clinics. Medicare pays for many medical visits through this telehealth benefit.
